LEGACY PMS

Your old PMS costs you more than you think

- Up to 3 hours a day spent on manual data entry
- IT infrastructure and servers: a hidden annual cost
- You only see revenue data the next morning - making decisions blindly
- Every upgrade means system downtime
- Overbookings because channels are not synced in real time
- Customer support issues

RENTLIO PRO

The future of hotel operations starts here

- Check-in in **30 seconds**, from any device
- **No server or IT maintenance costs**
- Revenue data in real time - **make decisions instantly**
- Upgrades **without downtime**
- Integrated Channel Manager - **overbookings eliminated**
- Local, reliable and **highly responsive customer support**

ALL IN ONE PLACE

Every hotel department works better

Rentlio Pro is more than just a PMS for your front desk. It is the operational brain of your hotel - every department has the tools it needs, while you maintain a complete overview. Less manual work, fewer errors, and more time for your guests.

50+ INTEGRATIONS

🔗 guest experience

🔗 revenue management

🔗 accounting

🔗 distribution

🔗 payment

🔗 housekeeping

● Front Desk Check-in, payments

- 30-second check-in. Scan documents and submit to eVisitor in one click, with online check-in available.
- Issue invoices and process payments without errors or long waits.

● Sales Rates, channels, analytics

- Pick-up, ADR, RevPAR - revenue data in real time.
- Set rates, availability and restrictions once; Rentlio Pro distributes them across all sales channels.

● F&B Restaurant, bar, wellness

- Post restaurant and bar charges directly to the room. One open folio, one bill.
- Split charges between multiple guests with ease.

● Housekeeping Maintenance

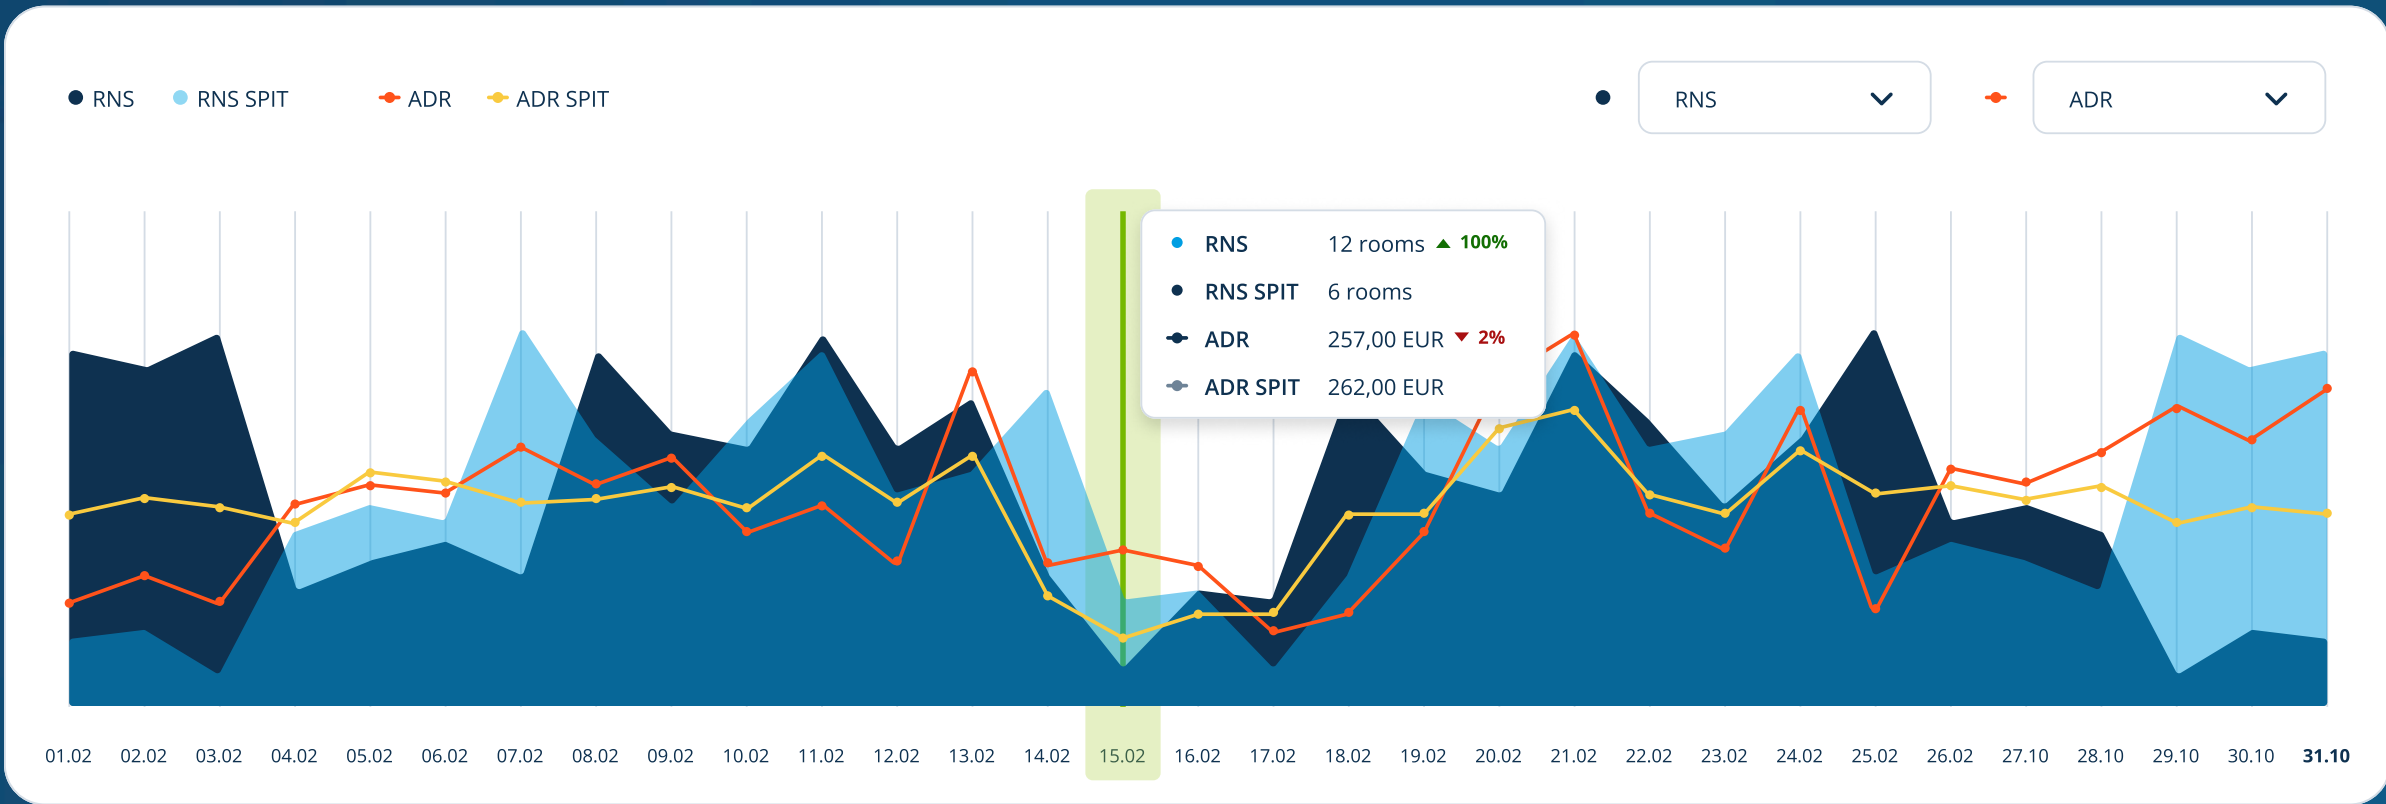

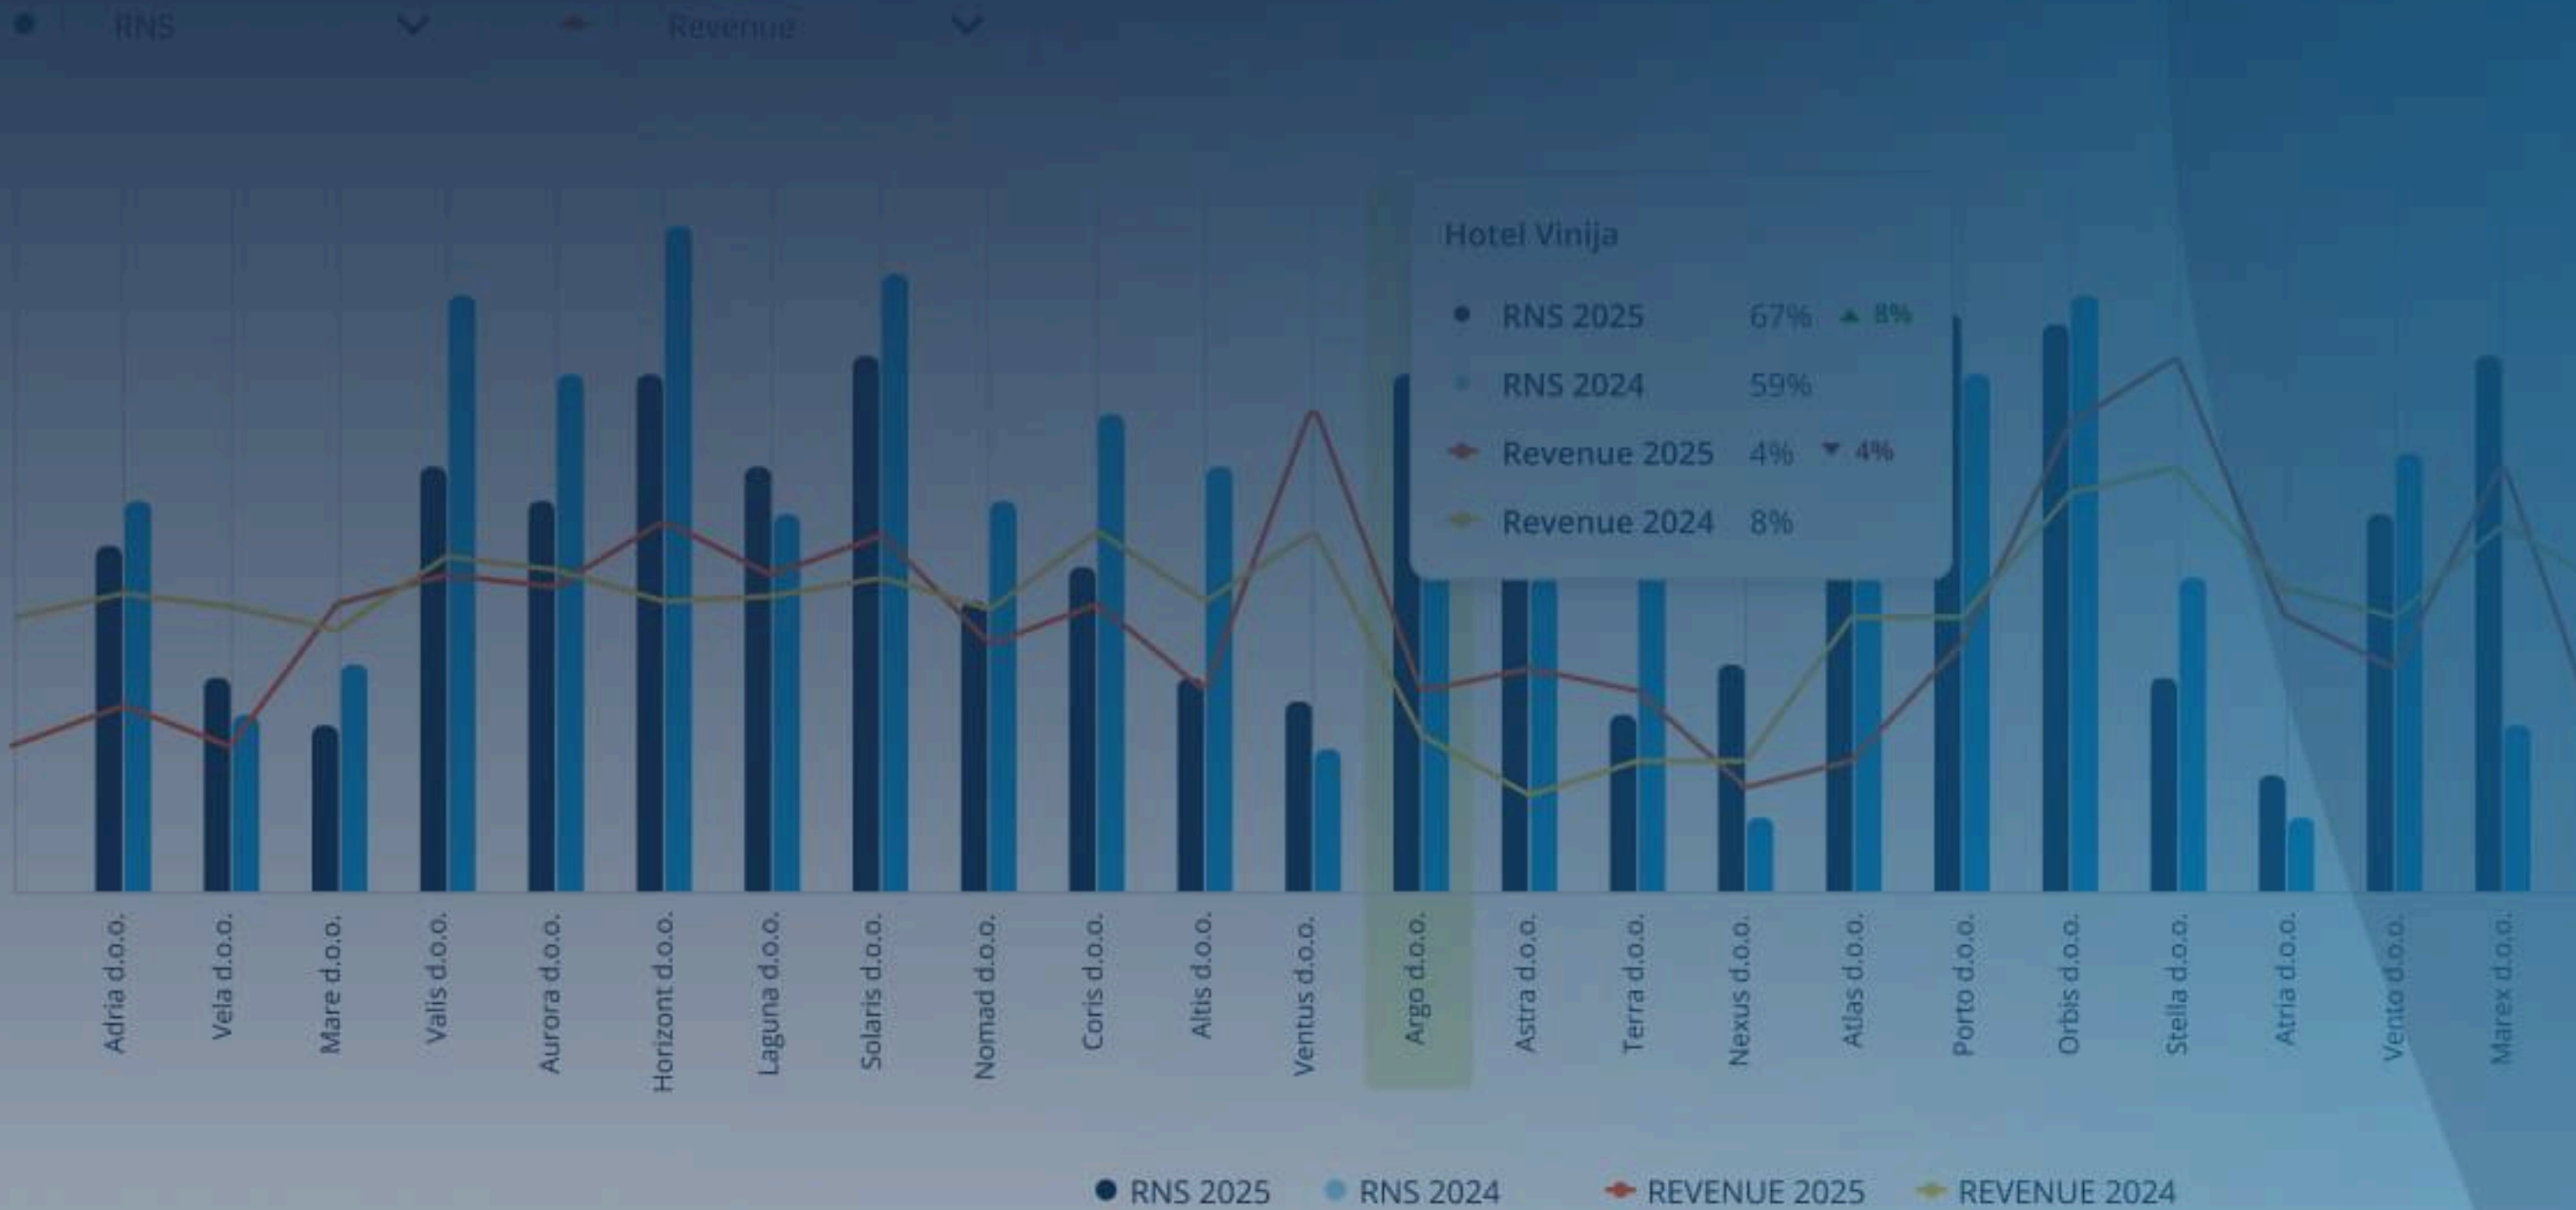

- Real-time room cleanliness status. The front desk always knows what is ready.
- Teams with different access permissions. Each team sees what it needs.

● Management Operations, accounting, reporting

- **Compare seasons and occupancy trends** - always know where you stand against last year.
- **Automatic posting** and one-click export to your accounting system.
- **Rentlio BI** — connect all hotel data and gain a complete view for every business decision.

Your hotel now has a revenue manager that never sleeps

Rentlio BI and Yielding track occupancy, revenue and trends in real time, making it easy to adjust rates accordingly. Make the right decisions at the right time.

RENTLIO PAY

Automate reservation payments according to your own rules and cancellation policy. The system processes transactions, generates advance and final invoices, and sends Pay by Link - without manual work or errors. You focus on the guest; payments take care of themselves.

CRM

Detailed profiles for every guest, all in one place - stay history, spending, preferences and documents. Your staff can provide personalised service that builds loyalty. The result: guests who return.

UNIFIED INBOX

All messages from Booking.com, Expedia and Airbnb appear in one place, in real time. No need to log in to each extranet separately. Faster replies mean better rankings on OTA platforms, while AI translation removes language barriers.

AI CHATBOT

The region's first AI chatbot in a PMS, integrated directly into Rentlio. In just a few words, get an overview of bookings, revenue and operations. Assign it tasks such as creating a report or adding a note to a reservation. Communicate by text or voice—without searching through the system.
